

NEUTREX

Neutralizer for concrete mixer

DESCRIPTION

NEUTREX is a product that is effective to acid neutralizer after a wash of a concrete mixer. This foamy product contains the corrosion inhibitor and wax to produce a beautiful shine.

AVANTAGES

1. It has exceptional foaming power this helps to uniformly cover the neutralize surface.
2. The foam stays stable, this helps to increase time of contact on the neutralize surfaces.
3. It contains brightening agents to give a shine to the machinery. It is very effective in removing Portland cement, limestone or cement from metal equipment, machinery, cement application tools, etc.

TECHNICAL DATA

pH (as is).....	11,0-11.5
Density (20°C).....	1,06 g/cc
Color.....	Transparent
Fragrance	Odeur faible
Biodegradability	Complete
Freezing Stability.....	Keep out from freezing
Degradability determined in accordance with OECD no. 301D.	

INSTRUCTIONS:

BIG NEUTRALIZE: One part NEUTREX for 10 part of water.

NORMALE NEUTRALIZE: One-part NEUTREX for 20 part of water.
